The Journey: [Apprentice Program](#)

Getting Results with the Apprentice Program!

My intention when I created the Apprentice Program is that you not only know how to do an EIP but that you get transformational results! I have created the Apprentice Program to stay connected with you and support you in fine-tuning your EIP skills to achieve even greater results. I worked with Lauren to develop

this program and you will be working with both of us.

You already have access to the power of this technique and we will share with you even more depth behind this process. The EIP technique incorporates all aspects of the ancient art of five-element theory of acupuncture, a 5000-year-old science, and the Apprentice Program will help you integrate even more aspects of this information.

The Apprentice Program will speed up the time it takes you to do an EIP, give great confidence in doing the process, take away any fears that you have about your skill level in doing the process and give you the language and tools to tell your friends and family exactly why it will work for them.

Patterns tell a story and you will learn how to read that story with grace and ease. You will understand how the pattern began; how it got locked into your system; how to interpret the pattern and how to use the New Instant Release Healing Technique.

The Apprentice Program is a 6-month home study program that will be supported with conference calls and a chat room. During the six-month period you will receive bi monthly lessons that will advance your spiritual expansion along with specific EIP's to catapult you forward on your journey.

I would personally like to invite you to join this program. This is the first step of your Grand Masters Journey, which is an in-depth study of mysteries and teachings of Ancient Wisdom.

Share the Experience!

Having the ability to heal yourself is a miracle in itself, but helping others to heal is a greater wonder for it will change the world. One of the greatest accomplishments on our soul's journey is to help our fellow man. Everyday I am grateful to have found a way to empower others in the creation of their lives.

I would like you to assist me in making a difference in the lives of others. When you make a difference in the lives of others it quickens the energy that is sent out to the planet and moves us closer to the Golden Age of wisdom, healing and manifestation.

That's why I am asking you become an Ambassador. Share the message that there is an emotional and spiritual aspect to DNA that can work for them and change their world. Help others discover the key to changing their limiting programs passed down generation after generation in the subconscious memory of the DNA. As an ambassador you would spread the word that everyone has the right and the ability to change their genetic heritage. As an ambassador you become part of an elite group to assist in class at Margaret's invitation.

I am honored to be part of your life and looking forward to working with you in the Ambassador program.

With love,
Margaret

A Five-Step Process for Total Wellness and Abundance

by Margaret Ruby

ISBN: 1-57174-469-X

You inherited more than your mother's curls and your father's

eyes... Revolutionary scientific research is proving that our emotions and thoughts can impact our health and shape the course of our lives. But if a positive attitude is all we need to live a healthier and happier life, why don't more people change more quickly? The answers lie deep in our DNA. Along with the color of our eyes and the shape of our nose, we have inherited the emotional patterns and beliefs of our ancestors. Programmed into our very cells, these deeply embedded patterns influence our health, wealth and relationships. *The DNA of Healing* reveals the breakthrough five-step process that has helped thousands around the world neutralize the unconscious programming they have inherited and reset their genetic codes for total wellness and abundance.

Feature Article:**2006****The Year of Spiritual Expansion**

By Margaret Ruby

Founder of PossibilitiesDNA

The year 2005 has been a period of hard work with an undercurrent of survival. For many it has felt like a sacrifice and a repetition of familiar patterns, repeating themselves in cycles. From this repetition of patterns has come a deeper understanding of what does not work for us and an opportunity of new beginnings. This opportunity has provided a deeper trust of our intuition or gut reactions. We have been able to see more clearly the illusion of duality. We have learned what beliefs serve us and what beliefs keep us on the destructive cycle of repetitive patterns. Our greatest lesson for 2005 was the ability to discern the difference of opposites and how opposites are really the same thing. For example, hate is a fractured part of love; hate is separation from love and love is unity.

Right now we are in a pattern of receptivity and reflection. We are looking into the deeper realities of what we truly want as well as what we do not want. It is difficult to know what we want when we are caught in the illusion of whom we think we are and whom we think we are not. As we get ready for the year 2006 we must be able to envision what we want. Ask yourself what unrealistic expectations or judgments you have made about yourself. What image do you hold of yourself and what image would you like to project? Success in 2006 will be built upon the vision you have about yourself. Make note of your strengths and your talents and focus on them.

The year 2006 will be a whirlwind of new energy, a period when you will learn how to love yourself more deeply. You will connect with this energy through the use of balance and the avoidance of indulgence. 2006 is the year of spiritual initiation. Your mind and body will be integrating more deeply with your spirit. In order to merge with your spiritual self you will go through three challenges. The three challenges will affect your material world, your relationships and your spiritual advancement. You will be faced with challenges relating to your material possessions and how attached you are to them. You will be faced with relationship challenges that have to do with your influence and power over others. Finally you will be challenged spiritually, with a test of your faith and the

strength of your ability to trust the universal life force and move into the unknown. The outcome will depend on how you express yourself through the balance between your mind and your heart.

The path to have exactly what you want in 2006 will be through the art of neutralization. Neutralization is the ability to take your sorrows, losses and disappointments and give thanks to them. To know that they were teachers that helped you see the illusion of your false self and connect to your Divine Self. They are the path to your future. When these challenges come your way say to yourself "Thank you for bringing this experience to me. I know that it is part of my connection to my Spirit. I am letting the experience go. I am prepared and ready for something more glorious to enter my world. Thank you for this gift. It is done, it is done, it is done."

Welcome to the year 2006, the year of spiritual expansion!
